

My Dot Sheet

ANYBODY CAN PLAY PIANO
ACTIVITY SHEET: STEP 4
Dot Sheet

STEP 4

Anybody Can Play PIANO Program

This is a continuation of the Dot Sheet Game for right hand finger color coding.

Play the same game:

Let each child have a tiny color coded laminated hand set so they can check colors if they need the help.

Call out a color and have the children choose a dot which is that color and touch the dot with their properly colored LEFT hand finger.

Check after each color to make sure they are all touching a properly colored dot with their proper finger.

THEN....

Do the same game with BOTH hands!

Start slowly to give them plenty of time, but keep increasing the speed as they internalize those color/finger combinations.

Make it fun!
