

EIGHTH NOTES FOR WALKING

Cut out a shape around each note.

Laminate then cut around your trimmed shape about a quarter to half inch away.

These eighth notes are for “walking” on those shoe steps that are on the green grass.

Quarter notes walk walk walk and

half notes walk wait walk wait.

Eighth notes get to run run run!

There are two eighth notes for each quarter note.

Be sure to say the words “run run run” loudly enough so the children “run” the right speed!
